

The University of Alabama in Huntsville

English Department, 222 Morton Hall
(256) 824-6320 or eh@uah.edu

GRADUATE CERTIFICATE IN TECHNICAL COMMUNICATION

The UAHuntsville Graduate Certificate in Technical Communication

can be earned
on its own in
about two years
(18 credit hours)
or in conjunction
with the
Masters in English
(18 credit hours)

NOT A STUDENT? NOT A PROBLEM...

The Graduate Certificate in Technical Communication is convenient for working professionals too!

With evening classes and customizable allied fields, we make it easy to continue your education while maintaining a full time job.

The Graduate Certificate in Technical Communication offers:

- A strong academic background in technical communication theory, technical editing practices, document design, usability practices, and software programs.
- Curriculum grounded in industry practices and the latest scholarship from the field.
- Special studies courses that cover the hottest topics in Technical Communication.
- The opportunity to customize your education and increase marketability by choosing two classes from an allied field such as management, information systems, computer science, linguistics, education, or psychology.
- Opportunities for hands-on experience through internships and editing projects with local employers.

Huntsville, Alabama, “The Rocket City,” is home to the 2nd largest research center in the U.S., Cummings Research Park, and top-quality employers such as NASA, Redstone Arsenal, Boeing, Lockheed Martin, and SAIC.

Huntsville has the 2nd highest concentration of PhDs in the U.S. and also boasts a low cost of living in comparison to other U.S. cities of its size.
